

## NUTRITION ASSESSMENT QUESTIONNAIRE

### SECTION A: SOCIODEMOGRAPHIC

1. Name: \_\_\_\_\_
2. Age: \_\_\_\_\_ years
3. Sex: 0. Male 1. Female
4. Religion: 0. Islam 1. Hinduism 2. Cristian 3. Buddhism
5. Profession: \_\_\_\_\_
6. Income: \_\_\_\_\_
7. Marital Status: 0. Married 1. Unmarried 2. Divorced 3. Widow
8. Educational Background: \_\_\_\_\_
9. Family Size: \_\_\_\_\_
10. Total Family Income: \_\_\_\_\_
11. Family Type: 0. Nuclear 1. Joint
12. Food Security: 0. Present 1. Absent

### SECTION B: ANTHROPOMETRIC MEASUREMENTS & BMI

1. Height: \_\_\_\_\_ cm
2. Weight: \_\_\_\_\_ kg
3. BMI: \_\_\_\_\_
4. Energy Requirement: \_\_\_\_\_ kcal
5. Energy Intake: \_\_\_\_\_ kcal

### SECTION C: HEALTHY EATING INDEX — FOOD GROUP CONSUMPTION

1. Has the patient experienced unintentional weight loss in the past 3–6 months?
2. How many days in the past 7 days did the patient eat whole fruits (fresh, frozen, or canned in juice — not juice)?
3. How many servings of 100% fruit juice does the patient typically drink per day?
4. How many days in the past 7 days did the patient eat non-starchy vegetables (e.g., broccoli, tomatoes, carrots, cabbage)?
5. How often does the patient eat dark green leafy vegetables (e.g., spinach, kale, amaranth, mustard greens)?
6. How often does the patient eat cooked dried beans, lentils, or peas?
7. How often does the patient eat whole grain foods (e.g., brown rice, whole-wheat bread, oats, millet, sorghum)?
8. How often does the patient eat refined grain foods (e.g., white rice, white bread, noodles, plain biscuits)?
9. How often does the patient consume dairy products (milk, yoghurt, cheese, calcium-fortified plant milk)?
10. How often does the patient eat lean protein foods (chicken, turkey, fish, eggs, tofu, low-fat meat)?
11. How often does the patient eat processed / preserved meats (e.g., sausage, salami, smoked fish, canned meat)?

### SECTION D: HEI — DIETARY FATS, SODIUM & ADDED SUGARS

1. What type of cooking fat / oil is primarily used in the patient's household?
2. How often does the patient eat deep-fried foods (fried snacks, fried fish, pakora, chips)?
3. How often does the patient eat fast food or commercially processed meals?
4. How often does the patient add extra salt to food at the table or during cooking?
5. How often does the patient drink sugar-sweetened beverages (SSBs: soda, fruit drinks, sweetened tea/coffee)?
6. How often does the patient eat sweets, cakes, pastries, or confectionery?
7. How often does the patient eat nuts, seeds, or nut butters?
8. How often does the patient eat fatty fish (e.g., hilsa, mackerel, sardines, salmon)?
9. Does the patient read nutrition / ingredient labels on food packages before purchase?

**SECTION E: DIETARY DIVERSITY — 24-HOUR RECALL**

| FOOD GROUP (HDDS/IDDS)                      | EXAMPLES                                                                      | Consumed in past 24 hrs?                                    |
|---------------------------------------------|-------------------------------------------------------------------------------|-------------------------------------------------------------|
| 1. CEREALS & GRAINS                         | Rice, bread, noodles, pasta, maize, millet, sorghum, oats, any cereal product | <input type="checkbox"/> Yes<br><input type="checkbox"/> No |
| 2. WHITE ROOTS & TUBERS                     | Potato, sweet potato, cassava, yam, taro, plantain                            | <input type="checkbox"/> Yes<br><input type="checkbox"/> No |
| 3. VEGETABLES                               | Any vegetable (leaves, roots, flowers, fruit-vegetables, squash, etc.)        | <input type="checkbox"/> Yes<br><input type="checkbox"/> No |
| 4. DARK GREEN LEAFY VEGETABLES              | Spinach, kale, amaranth leaves, mustard greens, drumstick leaves, moringa     | <input type="checkbox"/> Yes<br><input type="checkbox"/> No |
| 5. OTHER VITAMIN A-RICH VEGETABLES & FRUITS | Pumpkin, carrot, red/orange bell pepper, mango, papaya, apricot               | <input type="checkbox"/> Yes<br><input type="checkbox"/> No |
| 6. FRUITS (OTHER)                           | Any fruit not counted in Group 5 — banana, apple, guava, watermelon, citrus   | <input type="checkbox"/> Yes<br><input type="checkbox"/> No |
| 7. ORGAN MEAT                               | Liver, kidney, heart, spleen, blood (organ/offal meats)                       | <input type="checkbox"/> Yes<br><input type="checkbox"/> No |
| 8. FLESH MEAT                               | Beef, mutton, goat, pork, chicken, duck, turkey                               | <input type="checkbox"/> Yes<br><input type="checkbox"/> No |
| 9. EGGS                                     | Eggs from any poultry (chicken, duck, quail)                                  | <input type="checkbox"/> Yes<br><input type="checkbox"/> No |
| 10. FISH & SEAFOOD                          | Fresh, frozen, dried or canned fish; shrimp, crab, any seafood                | <input type="checkbox"/> Yes<br><input type="checkbox"/> No |
| 11. LEGUMES, NUTS & SEEDS                   | Dal, lentils, chickpeas, kidney beans, groundnuts, sesame, sunflower seeds    | <input type="checkbox"/> Yes<br><input type="checkbox"/> No |
| 12. DAIRY PRODUCTS                          | Milk, yoghurt, cheese, ice cream, cream (any dairy)                           | <input type="checkbox"/> Yes<br><input type="checkbox"/> No |

|                                |            |
|--------------------------------|------------|
| <b>TOTAL DDS SCORE (0–12):</b> | _____ / 12 |
|--------------------------------|------------|

|                      |                                                                                                                              |
|----------------------|------------------------------------------------------------------------------------------------------------------------------|
| <b>DDS Category:</b> | <input type="checkbox"/> Low <input type="checkbox"/> Medium <input type="checkbox"/> Adequate <input type="checkbox"/> High |
|----------------------|------------------------------------------------------------------------------------------------------------------------------|

**TOTAL DDS RANGE:** 0 – 12 points

- 0–3 Low dietary diversity — HIGH nutritional risk
- 4–6 Medium dietary diversity — MODERATE risk
- 7–9 Adequate dietary diversity
- 10–12 High dietary diversity — LOW nutritional risk

#### **SECTION F: MEAL PATTERNS & EATING BEHAVIOURS**

1. How many main meals does the patient typically consume per day?
2. Does the patient regularly eat breakfast (within 2 hours of waking)?
3. How many days per week does the patient skip at least one main meal?
4. How often does the patient eat home-cooked meals vs. outside food?
5. Does the patient have access to clean, safe drinking water at home?
6. How many cups of plain water does the patient drink daily?
7. Does the patient follow any prescribed or self-selected dietary pattern?
8. How often does the patient eat late-night meals or snacks (after 9 PM)?
9. How often does the patient eat snacks between main meals?

#### **SECTION G: DOUBLE BURDEN OF MALNUTRITION**

1. Has the patient been previously diagnosed with undernutrition, protein-energy malnutrition (PEM) or wasting?
2. Has the patient ever been diagnosed with micronutrient deficiency anaemia (iron, folate or B12 deficiency)?
3. Has the patient experienced significant fatigue, weakness or poor wound healing recently?
4. Does the patient currently experience or have a history of food insecurity (not having enough food to eat)?
5. Does the patient consume adequate dietary protein? (assessor estimate based on recall)
6. Has the patient been clinically diagnosed with Type 2 Diabetes Mellitus?
7. Has the patient been diagnosed with hypertension (BP  $\geq 140/90$  mmHg)?
8. Does the patient have a current or prior history of cardiovascular disease (heart attack, stroke, heart failure)?
9. How often does the patient feel they consume more calories than needed?

#### **SECTION H: PHYSICAL ACTIVITY & SEDENTARY BEHAVIOUR**

1. On how many days per week does the patient typically do moderate-intensity physical activity (brisk walking, cycling, household work)?
2. On how many days per week does the patient do vigorous-intensity physical activity (running, heavy lifting, fast cycling)?

#### **SECTION I: PSYCHOSOCIAL & MENTAL HEALTH FACTORS INFLUENCING NUTRITION**

1. Over the past 2 weeks, how often has the patient felt down, depressed, or hopeless?
2. Over the past 2 weeks, how often has the patient felt nervous, anxious, or on edge?
3. How would the patient rate their overall stress level in the past month?
4. Does the patient eat more food than planned when they are stressed or emotionally upset?
5. Does the patient have a positive relationship with food (eats without guilt, shame or fear)?
6. How many hours does the participant sleep per night?

#### **SECTION J: NUTRITION KNOWLEDGE, ATTITUDES & SELF-EFFICACY**

1. I understand what a balanced diet means and which food groups should be included.
2. I know the recommended daily servings of fruits and vegetables for an adult.
3. I can identify foods that are high in saturated fat, added sugar, or sodium on a food label.
4. I understand the link between poor diet and chronic diseases such as diabetes and heart disease.
5. Good nutrition is a priority for me compared to other aspects of my daily life.
